

TRAINING MANUAL

utobo

1. Getting Started

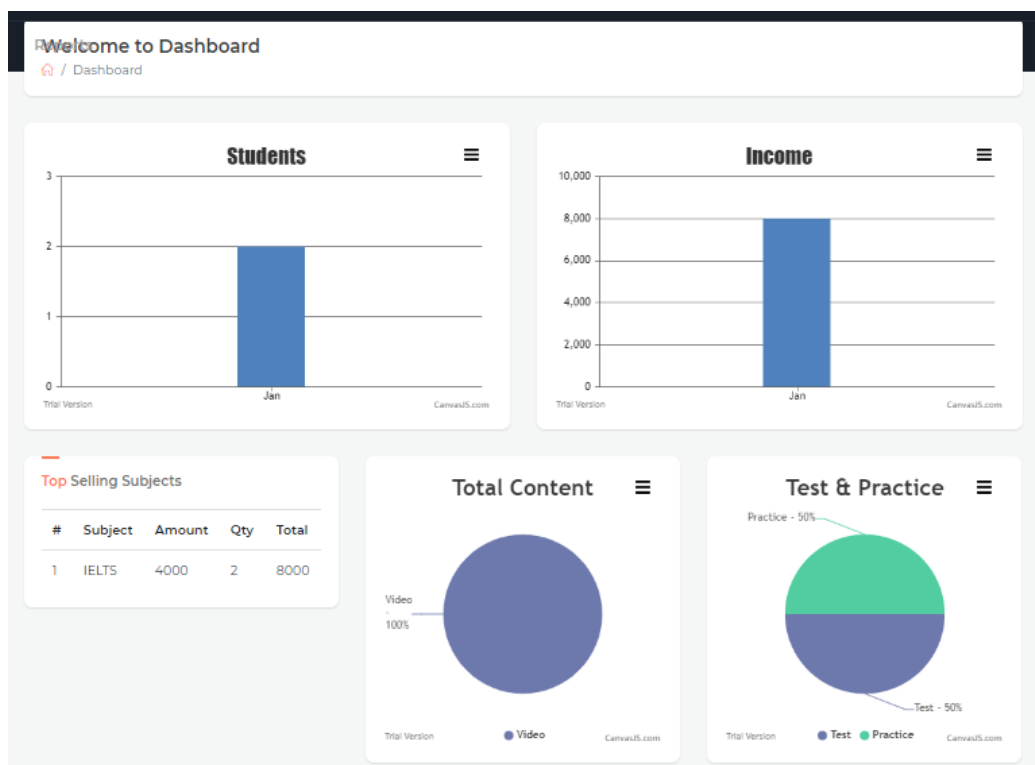

- Visit <https://tutor.utobo.com/login> and enter your registered mobile number and password

The login form is titled "Login" and is enclosed in a light gray border. It contains two input fields: "Enter mobile no" with a mobile phone icon and "Enter password" with a lock icon. Below these fields is a large orange "SIGN IN" button with a right-pointing arrow. Underneath the button is a gray box with the text "To sign-up please visit [utobo.com pricing page](https://utobo.com/pricing)". At the bottom of the form is a blue link that says "Forgot Password?".

2. Dashboard overview

The dashboard displays a concise information about the students, course content, tests and income.

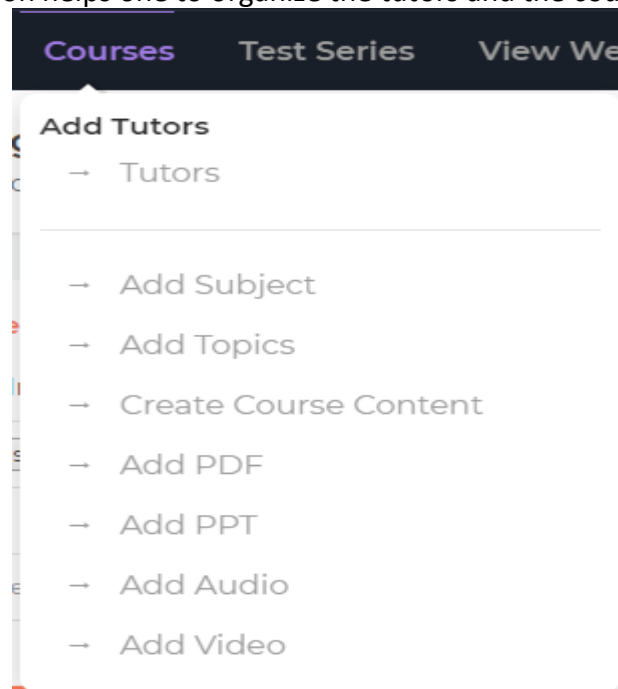

TRAINING MANUAL

- 2.1 Students Chart: This shows the number of students the tutor has added in a month. *E.g, the above student chart shows that the tutor has added 2 students in the month of January.*
- 2.2 Income Chart: The income chart shows the amount a tutor has received in a particular month. *E.g. the above chart shows that the tutor has received Rs. 8000 in the month of January.*
- 2.3 Top selling subject list: This list displays the subjects which are being sold the highest by the tutor. *E.g. the above list shows that the IELTS course earned the most revenue.*
- 2.4 Total content Chart: This shows the percentage of the content types in all the courses being provided by the tutor. *E.g. the above chart shows that the tutor has only video content in all its courses.*
- 2.5 Test and Practice Chart: This chart shows the percentage of the number of practice and actual tests in all throughout the tutor's courses. *E.g. the above chart shows that of all the tests the tutor has se, 50% of them are practice and 50% are actual tests. One can get the exact value if on hover the mouse pointer over it.*

3. **Courses**: This option helps one to organize the tutors and the course contents.

TRAINING MANUAL

The test can be made free or paid by selecting the Payment type. If one chooses to make it a paid one, one needs to select the paid option, select the Payment Gateway and enter Amount.

A screenshot of the utobo test configuration interface. It includes sections for "Set Test Time" with radio buttons for "Untimed" and "Timed" (selected); "Manage Time" with radio buttons for "All questions have different time" (selected) and "All question have equal time"; "Add marks" with radio buttons for "All questions have different marks" and "All question have equal mark" (selected); a "Total mark" input field with the value "0"; a "Choose File" button next to a "Download Sample" link; and a "SUBMIT" button. A file selection area shows "Choose File" and "No file chosen".

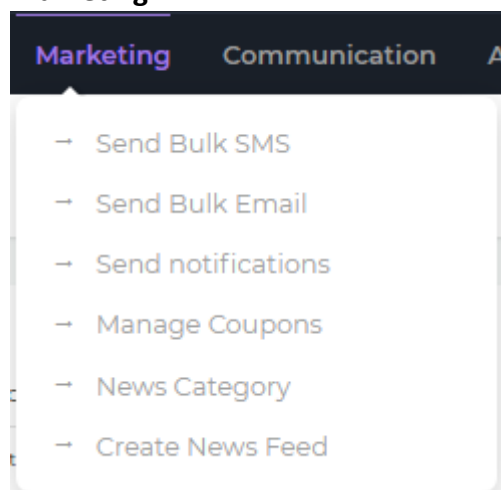

One can make the test times and untimed as well. If one chooses to make all the questions of different time, one needs to enter the allocated time in the excel sheet. One can make the questions' marks same or different. If on chooses to make all the questions of different marks, one needs to enter the allocated mark in the excel sheet. If all the questions are of same marks, one needs to choose *All questions have equal mark* option enter the total marks. The computer will automatically allocate marks to the questions.

One has to keep the questions prepared in an excel sheet as per the Sample. One needs to download the sample by clicking on Download Sample from the page before preparing questions.

4.2 Practice Questions: (Add the same content after getting) Are the page contents same?

5. **View Website**: Page not available

6. **Marketing**

Marketing is an important tool one can use to promote the courses. Through this tool one can reach out to the students directly.

6.1 Send Bulk SMS:

TRAINING MANUAL

utobo

The screenshot displays the SMS management interface. At the top, three colored boxes show statistics: 'Total Purchased SMS' (0, blue), 'Total sent SMS' (0, purple), and 'Total remaining SMS' (0, green). Below these, the 'Select Users' section on the left has a table with 'Name' and 'Mobile' columns. A 'Filter' dropdown is open, showing 'Registered' and 'Paste' options. A text area below the table is labeled 'paste your numbers'. To the right, the 'Send SMS' section includes an 'SMS title' input field, a 'Type SMS Content' text area, a '200 character left' indicator, and a 'SEND' button.

Through this feature one can send SMSs to the students' phone number directly. One needs to purchase SMSs to be able to send them.

To send SMSs, one needs to use the filter to select the phone numbers. If one chooses to send then to the students who have registered to the tutor's courses, Registered option has to be selected and all the registered students' phone number will appear in it list. If the tutor already has the phone numbers ready with him/her, Paste option is to be selected and then the tutor can paste all the phone numbers where the SMSs are to be sent.

SMS Title is to be entered as this is the SMS subject. The SMS content will contain the details about the course or the promotion.

One can view the total purchased SMS, total sent SMSs and total remaining SMS at the top of the page.

6.2 Send Bulk Email:

The screenshot displays the Bulk Email management interface. At the top, three colored boxes show statistics: 'Total Purchased Emails' (0, blue), 'Total sent Emails' (0, purple), and 'Total remaining Emails' (0, green). Below these, the 'Select Users' section on the left has a table with 'Name' and 'Email' columns. A 'Filter' dropdown is open, showing 'Registered' and 'Paste' options. A text area below the table is labeled 'paste your numbers'. To the right, the 'Send Email' section includes an 'Email Title' input field, an 'Email Subject' input field, a 'Type Email Content' text area with a rich text editor toolbar, and a 'SEND' button.

Through this feature one can send Emails to the students' email-IDs directly. One needs to purchase emails to be able to send them.

To send emails, one needs to use the filter to select the emails. If one chooses to send then to the students who have registered to the tutor's courses, Registered option has to be selected and all the registered students' email-IDs will appear on it list. If the tutor already has the email-IDs ready with him/her, Paste option is to be

TRAINING MANUAL

selected and then the tutor can paste all the email-IDs where the emails are to be sent.

Email Title is to be entered. This will denote what is the email about. The Email Subject will contain the Subject that will appear on the inbox. And the Email Content will contain the details about the course or the promotion.

One can view the total purchased emails, total sent emails and total remaining emails at the top of the page.
