

TRAINING MANUAL

utobo

1. Getting Started

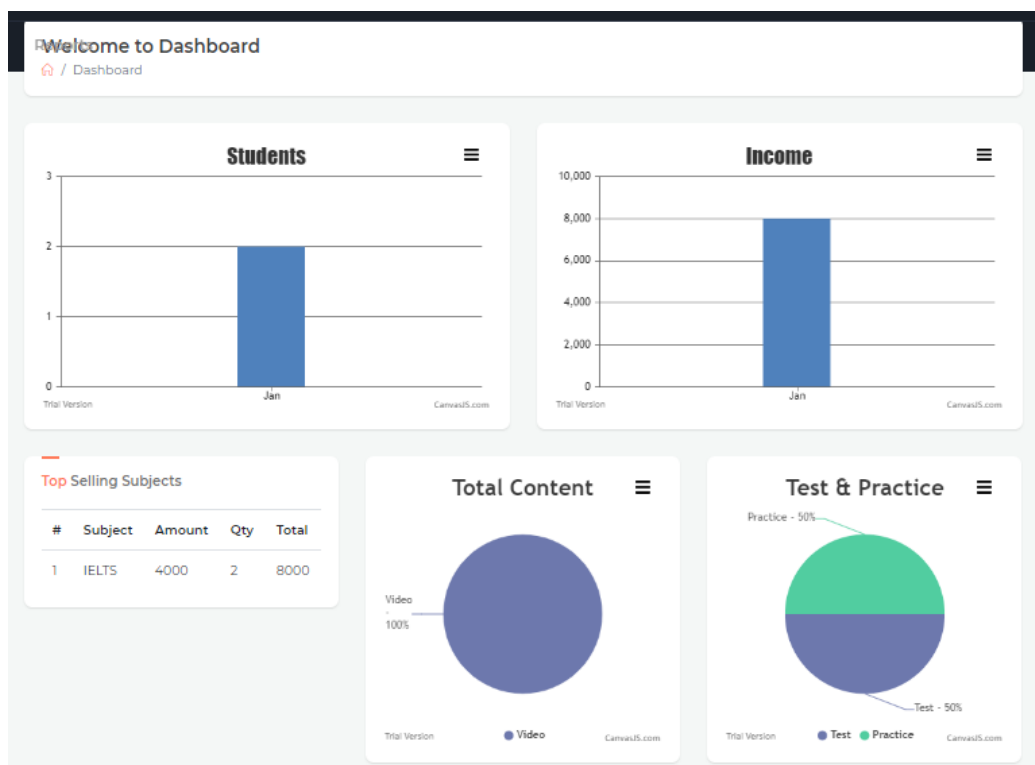

- Visit <https://tutor.utobo.com/login> and enter your registered mobile number and password

The login form is titled "Login" and is enclosed in a white box with a black border. It contains two input fields: "Enter mobile no" with a mobile phone icon and "Enter password" with a lock icon. Below these fields is an orange "SIGN IN" button with a right-pointing arrow. Under the button is a grey box with the text "To sign-up please visit [utobo.com pricing page](https://tutor.utobo.com/pricing)". At the bottom is a blue link "Forgot Password?".

2. Dashboard overview

The dashboard displays concise information about the students, course content, tests, and income.

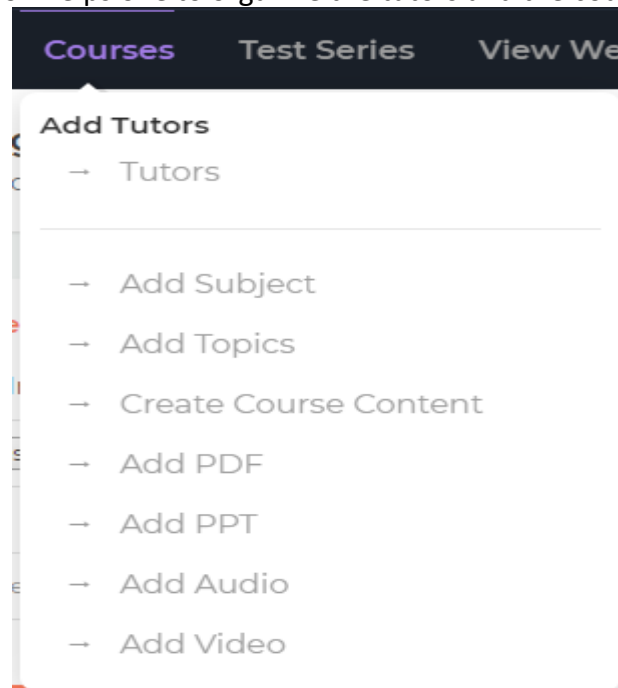

TRAINING MANUAL

- 2.1 Students Chart: It shows the number of students the tutor has added in a month. *E.g., the above student chart shows that the tutor has added two students in January.*
- 2.2 Income Chart: The income chart shows the amount a tutor has received in a particular month. *E.g., the above chart shows that the tutor has received Rs. 8000 in January.*
- 2.3 Top-selling subject list: This list displays the subjects which are the top-selling subjects of the tutor. *E.g., the above list shows that the IELTS course earned the most revenue.*
- 2.4 Total content Chart: This shows the percentage of the content types(audio, video, pdf, ppt) in all the courses being provided by the tutor. *E.g., the above chart shows that the tutor has only video content in all his courses.*
- 2.5 Test and Practice Chart: This chart shows the percentage of the number of practice and actual tests throughout the courses. *E.g., the above chart shows that of all the tests the tutor has set, 50% of them are practice, and 50% are actual tests. One can get the exact value if they hover the mouse pointer over it.*

- 3. **Courses**: This option helps one to organize the tutors and the course content.

TRAINING MANUAL

The test can be made free or paid by selecting the Payment type. If one chooses to make it paid then he/she needs to choose the paid option, select the Payment Gateway, and enter the amount.

A screenshot of the utobo test configuration interface. It includes sections for "Set Test Time" with radio buttons for "Untimed" and "Timed" (selected); "Manage Time" with radio buttons for "All questions have different time" (selected) and "All question have equal time"; "Add marks" with radio buttons for "All questions have different marks" and "All question have equal mark" (selected); a "Total mark" input field with the value "0"; a "Choose File" button with a "Download Sample" link; and a "SUBMIT" button.

One can set the test to timed as well as untimed. If one decides to allocate different time for every question then he/she needs to enter the allocated time in the excel sheet.

One can make all the questions to carry the same marks or even to carry different marks. If one chooses to make all the questions of different marks, one needs to enter the allocated mark in the excel sheet. If all the questions are of the same marks, one needs to choose *All questions have equal mark* option and enter the total marks. The computer will automatically allocate marks to the questions.

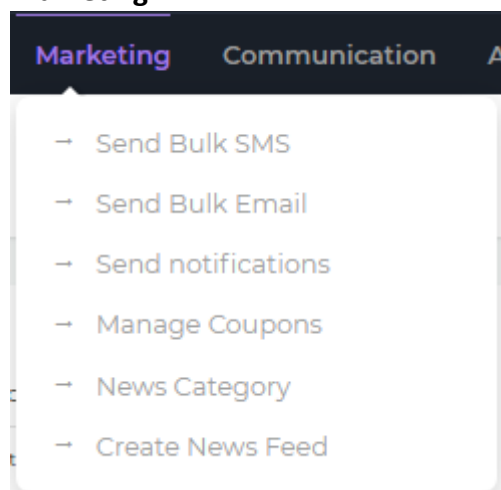

One has to keep the questions prepared in an excel sheet as per the Sample.

One needs to download the Sample by clicking on Download Sample from the page before making questions.

4.2 Practice Questions: (Add the same content after getting)

5. **View Website**: Page not available

6. **Marketing**

Marketing is an important tool that can be used by one to promote the courses. Through this tool, one can reach out to the students directly.

6.1 Send Bulk SMS:

TRAINING MANUAL

utobo

The screenshot displays the SMS management interface. At the top, there are three colored boxes: a blue box for 'Total Purchased SMS' (0), a purple box for 'Total sent SMS' (0), and a green box for 'Total remaining SMS' (0). Below these is the 'Select Users' section with a table with columns 'Name' and 'Mobile'. A 'Filter' dropdown menu is open, showing 'Registered' and 'Paste' options. A text area below the table is labeled 'paste your numbers'. To the right is the 'Send SMS' section with a text input for 'SMS title', a larger text area for 'Type SMS Content', a '200 character left' indicator, and a red 'SEND' button.

Through this feature, one can send SMS to the student's phone numbers directly. One needs to purchase SMS to be able to send them.

To send SMS, one needs to use the filter to select the phone numbers. If one chooses to send them to the students who have registered to the tutor's courses, the Registered option has to be selected and all the registered student's phone numbers will appear in the list. If the tutor already has the phone numbers ready with him/her, the Paste option is to be selected, and then the tutor can paste all the phone numbers where the SMS are to be sent.

SMS Title is to be entered as this is the SMS subject. The SMS content will contain the details about the course or the promotion.

One can view the total purchased SMS, total sent SMS and total remaining SMS at the top of the page.

6.2 Send Bulk Email:

The screenshot displays the Bulk Email management interface. At the top, there are three colored boxes: a blue box for 'Total Purchased Emails' (0), a purple box for 'Total sent Emails' (0), and a green box for 'Total remaining Emails' (0). Below these is the 'Select Users' section with a table with columns 'Name' and 'Email'. A 'Filter' dropdown menu is open, showing 'Registered' and 'Paste' options. A text area below the table is labeled 'paste your numbers'. To the right is the 'Send Email' section with text inputs for 'Email Title' and 'Email Subject', a rich text editor for 'Type Email Content' (with formatting tools like bold, italic, underline, link, unlink, bulleted list, numbered list, indent, outdent, and code), and a red 'SEND' button.

Through this feature, one can send Emails to the students email-IDs directly. One needs to purchase emails to be able to send them.

To send emails, one needs to use the filter to select the emails. If one chooses to send then to the students who have registered to the tutor's courses, the Registered option has to be selected, and all the registered student's email-IDs will appear on the list. If the tutor already has the email-IDs ready with him/her, the Paste option is

TRAINING MANUAL

to be selected, and then the tutor can paste all the email-IDs where the emails are to be sent.

Email Title is to be entered. This will denote what the email is about. The Email Subject will contain the Subject that will appear in the inbox and the Email Content will provide the details about the course or the promotion.

One can view the total purchased emails, total sent emails, and total remaining emails at the top of the page.
